

FIX THE CAR PARKING CRISIS

AT EDMONDSON PARK

To the Hon. Speaker and Members of the NSW Legislative Assembly:

This petition of concerned residents of south-west Sydney brings to the attention of the House the State Government’s failure to address the commuter car parking crisis at Edmondson Park.

We call on the State Government to:

1. Recognise that the current commuter car parking at Edmondson Park train station is woefully inadequate, especially considering the thousands of extra residents due to move into the area in the coming years.
2. Commit to funding a multi-storey commuter car park at Edmondson Park train station in the 2018-19 Budget.

We, the undersigned, ask the Legislative Assembly to call on the State Government to fix the commuter parking crisis at Edmondson Park.
